About Me

I completed my B.Sc in Computer Science and Engineering at East West University and currently work as a Jr. AI Automation Engineer at SM Technology. Skilled in SQL, Python, web development, data handling, and AI automation, with hands-on experience applying these skills to academic and professional projects. Passionate about solving problems, building efficient solutions, and leveraging technology to support data-driven decision making. A quick learner and dedicated team player with strong adaptability and experience working collaboratively toward shared goals.

Experience

- SM Technology** April 2026 – Present
Jr AI Automation Engineer, Dept of AI
Dhaka, Bangladesh
 - Built and maintained AI powered automation workflows using n8n, Zapier, Make.com, and Microsoft Power Automate, integrating APIs, webhooks, CRMs, databases, and third party services.
 - Developed agentic AI solutions for lead qualification, automated follow-ups, data extraction, document processing, and intelligent business workflow orchestration.
 - Integrated and optimized backend services using Python, FastAPI, Node.js, and REST APIs to improve automation reliability, scalability, and system performance.
- East West University** Oct 2024 – Sept 2025
Undergraduate Teaching Assistant, Dept of CSE
Dhaka, Bangladesh
 - As an Undergraduate Teaching Assistant, I supported faculty in delivering course material, grading assignments, leading study sessions, and providing academic assistance to students

Education

- East West University** (Oct 2021 – Sept 2025)
B.Sc. in Computer Science and Engineering (CGPA: 3.78 / 4.00) | Cum Laude
Dhaka, Bangladesh
 - Thesis:** Multimodal Transformer-Based Radiology Report Generation: Integrating Visual and Semantic Features for Clinical Precision
- Govt. Science College** (April 2018 – March 2020)
Higher Secondary Certificate (HSC) (GPA: 5.00 / 5.00)
Dhaka, Bangladesh
 - Group:** Science
- Motijheel Govt. Boys' High School** (Jan 2009 – Feb 2018)
Secondary School Certificate (SSC) (GPA: 5.00 / 5.00)
Dhaka, Bangladesh
 - Group:** Science

Projects

- Intelligent Client Communication & Design Automation** | n8n, Node.js, JavaScript, Twilio, CRM
 - Designed and developed an end-to-end automation system using n8n, integrating WhatsApp, Twilio, Gmail, Notion, Google Sheets, Google Forms, Canva, and AI agents.
 - Automated customer design workflows by routing client requests, collecting form data and media, generating Canva designs with AI autofill, and delivering final outputs directly through WhatsApp.
 - Implemented centralized customer tracking, workflow status management, and automated state-reset logic using Notion and Google Sheets, reducing manual coordination and improving operational scalability.
- AI Powered Business Operations Automation System** | n8n, Outlook, Xero, Telegram Bot, Wix, REST APIs, AI agents
 - Developed an AI-powered post-meeting automation system to process Zoom call transcripts, extract actionable tasks, and streamline client follow-ups.
 - Integrated Fireflies API with AI agents to analyze meeting conversations, identify action items, prioritize tasks based on deadlines and urgency, and organize key meeting details.
 - Automated task summaries and team notifications through Slack while storing structured meeting and task data in Google Sheets for centralized tracking, reporting, and improved accountability.
- AI-Powered Zoom Call Task Management System** | n8n, Fireflies API, Slack, Google Sheets, JavaScript, AI Agents

- Built an AI driven business automation system using n8n to manage client enquiries, bookings, calendar scheduling, invoicing, and bookkeeping workflows.
- Automated Outlook email responses and calendar availability checks with AI generated personalized pricing and booking information, while creating confirmed events automatically.
- Integrated Wix, Xero, and Telegram to streamline enquiry processing, invoice generation, payment workflows, and real-time financial queries through an automated bookkeeping assistant.

Electricity Billing System for DESCO | SQL, Oracle Apex

- Developed an electric billing system that would enable DESCO to manage its employees, customers, consumption, unit rates, and billing information.

Cake Shop Management System | PHP, SQL, JS, HTML, CSS

GitHub

- An online based cake shop where customers can purchase cakes, and the admin panel gets all the information

- B. M. Shahria Alam et al. *2025 International Conference on Green Energy, Computing and Sustainable Technology (GECOST) At: Malaysia*, 2025. DOI: 10.1109/GECOST66002.2025.11324532

Fabric Finesse: Harnessing YOLOv8 for Enhanced Textile Detection

- B. M. Shahria Alam et al. *4th International Conference on Electrical, Computer and Communication Engineering (ECCE), CUET, Bangladesh*, 2025. DOI: 10.1109/ECCE64574.2025.1101303

LeafLife: An Explainable Deep Learning Framework with Robustness for Grape Leaf Disease Recognition

- B. M. Shahria Alam et al. *2025 IEEE International Conference on Signal Processing, Information, Communication and Systems (SPICSCON)*. DOI: 10.1109/SPICSCON69221.2025.11504073

Predictive Analysis of Monkeypox Case Trends Through Machine Learning Models: A Feature-Driven Approach Using Model Interpretability

- B. M. Shahria Alam et al. *4th International Conference on Electrical, Computer and Communication Engineering (ECCE), CUET, Bangladesh*, 2025. DOI: 10.1109/ECCE64574.2025.11013944

Technical Skills

Languages: MySQL, C++, C, Java, Python, PHP, HTML CSS

Technologies: n8n, Zapier, Make.com, Microsoft Power Automate, Microsoft SQL Server, Oracle SQL Server, AutoCAD, Adobe Photoshop, Adobe Illustrator, MS Office, Figma, TensorFlow, PyTorch

Concepts: Compiler, Operating System, Decryption, Artificial Intelligence, Machine Learning, Neural Networks, API, Database Normalization, Agile Methodology, Cloud Computing

Others: Team Collaboration, Leadership, Communication Skills, Volunteering Experience

Achievements

Cum Laude

- Graduated with *Cum Laude* honors from East West University in recognition of outstanding academic performance

Dean's List

- Earned the Dean's List Scholarship at East West University for maintaining excellent academic performance.

Medha Lalon Scholarship

- Awarded the Medha Lalon Scholarship at East West University for academic excellence and achievement.

Victory Day Intra-University AutoCAD Competition

- Secured 2nd place in the Victory Day Intra-University AutoCAD Competition organized by EWUCoPC, demonstrating strong technical design and problem-solving skills.
